

Metamask

Step 1: Click MetaMask logo on the browser to open the Extension -> select Network -> select Custom RPC as shown below:

Step 2: When Settings screen pops up, enter the following information:

- Network Name: TomoChain Mainnet
- New RPC URL: <https://rpc.tomochain.com>
- ChainID: 88
- Symbol: TOMO

The screenshot shows a mobile application interface for setting up a network. The title bar at the top says "Settings" with a close button (X) on the right. Below the title bar is a section header "Networks" with a back arrow on the left. The form contains the following fields:

- Network Name:** A text input field containing "TomoChain Mainnet".
- New RPC URL:** A text input field containing "https://rpc.tomochain.com".
- ChainID (optional):** A text input field containing "88".
- Symbol (optional):** A text input field containing "TOMO".
- Block Explorer URL (optional):** This field is visible but empty.

Step 3: Scroll down then click **Save** to connect to TomoChain Mainnet.
